

Project manager for major projects (m/f/d)

Description

We are looking for a motivated project manager for major projects (m/f/d) to start as soon as possible.

Responsibilities

- Planning, managing, and executing construction, conversion, repair, and renovation measures, including energy-saving projects
- Assuming quality, schedule, and cost control for all ongoing projects
- Carrying out project-related special tasks and ensuring communication between the involved project groups
- Maintaining structured project documentation and creating regular status reports for operational management
- Assisting in the execution of procurement and tendering procedures
- Optimizing existing processes and maintaining technical documentation
- Adhering to and monitoring hygiene regulations in swimming pools, thermal baths, and springs

Qualifications

- A completed degree in engineering (minimum: University of Applied Sciences diploma/Bachelor's degree) that qualifies for the performance of the above-mentioned tasks, preferably in architecture or civil engineering
- Extensive professional experience in the construction sector, preferably with a focus on project management and in the area of swimming pool construction
- In-depth knowledge of project management
- A strong interest in the modernization of our facilities
- A structured, solution-oriented, and independent working style
- A strategic and entrepreneurial mindset
- Assertiveness and strong negotiation skills
- A valid driver's license for passenger cars and the willingness to use a private car for business trips (in exchange for mileage compensation)

Payment is in accordance with pay group 12 of the collective labour agreement for the public service (TVöD).

Severely disabled persons with equal aptitude will be given preferential consideration. In the interests of equal opportunities, applications from women are particularly welcome, as they are currently underrepresented in this pay group.
